Design

The hyper property is designed to be a seamless extension of its surroundings, with the organic and flowing lines of the orchid plant incorporated into every aspect of the design. The exterior of the hyper property features a series of surging curves that mimic the graceful movements of the orchid, while the interior spaces are designed to create a sense of flow and continuity.

Details

The attention to details is evident in every aspect of the hyper property, from the handcrafted fixtures and fittings to the state-of-the-art technology that is seamlessly integrated into the design. From its organic curves to its luxurious finishes, every aspect of the hyper property has been carefully crafted to create a sense of opulence and comfort that is truly unparalleled.

Distinction

Binghatti Orchid is an architectural marvel of modern design, featuring open-plan living spaces that are perfect for entertaining guests. The use of natural materials creates a warm and inviting atmosphere, while the expansive windows offer breath-taking views of the city skyline.
